DIGITAL BUSINESS CONSULTING

BRAND IDENTITY GUIDELINES · V1 · 2026

01 — THE IDEA

Panta helps small businesses, nonprofits, and independent leaders build a digital presence that actually works — where *strategy* and *engineering* come from the same hands.

POSITIONING

Accessible and value-driven.
Big-company capability,
delivered at the scale and
warmth a small team can trust.

PERSONALITY

Warm and approachable, but
rigorous. A calm advisor who
can also build the thing.

THE NAME

Panta — from the Greek for “all
things.” Universal and quietly
hopeful; the meaning is felt,
never preached.

02 — THE MARK

The ripple

Three concentric rings, thickest at the center and thinning outward — one clear act at the core, its effect widening into the world. The innermost ring carries the bamboo accent; the wordmark shares the same fine stroke weight so name and mark read as a single drawing.

Clear space = the diameter of the mark's outer ring on every side.

Minimum sizes

Full lockup: 120 px / 32 mm wide minimum, so the descriptor stays legible.

Mark alone: 20 px / 6 mm; below this the inner ring is used solid.

Favicon / avatar: mark centered on charcoal or bamboo, no wordmark.

04 — WHAT NOT TO DO

panta

× Don't set the name in a heavy sans

× Don't recolor the rings off-palette

× Don't stretch or distort the mark

panta

× Keep strong contrast

05 — COLOR

Loosely a panda: warm charcoal and cream do the heavy lifting, kept out of pure black-and-white by a single bamboo green. Sage and stone are quiet supporting neutrals — use them sparingly.

DIGITAL BUSINESS CONSULTING

“Let’s make the complicated part quiet.”

WE ARE

Plain-spoken, reassuring, specific. We name the problem, then remove it. Every recommendation is backed by something we can actually build.

WE AVOID

Jargon for its own sake, hype, and pressure. No preaching of the name’s origin — the optimism is in how we act, not what we claim.

SOUNDS LIKE

“Here’s the one thing to fix first.” · “You don’t need a tech team — you need us for a bit.” · “One good move, felt everywhere.”
